# PREFACE

## About Cabra 0.7.0

Cabra is a free, cross-platform and award-winning flashcard study program. Build and study flashcards with Cabra to ace your next test, learn a new language, or prepare for world domination.

### Cabra's features

#### Flashcards

Create flashcards (with images, if you like) and study them at your own pace. Cabra's advanced algorithm schedules personalized and effective studying sessions for you.

#### Super easy

Cabra packs a lot of power, but it has a clean, intuitive interface and is very easy to use. You don't have to be a whiz to use Cabra, though Cabra will make you into one.

#### Empower your brain

Cabra uses the powerful Leitnerian Algorithm when you're studying, ensuring you get the most studying done in the least amount of time.

#### Great for students

Create flashcards on any subject imaginable (and then some), print them, and share them with your friends. Cabra was developed by a high school student who knows what students want and need.

#### Notes

Jot down your thoughts or class notes using the integrated Notes feature. You can add images or highlighting to help you remember the most important information.

#### Great for kids

Kids love the ease of use, colors, and cute mascot of Cabra; parents love the education they get out of it. Teach your kids [Spanish](#), [French](#), and [German](#) using Cabra's online projects!

#### Dress up Cabra

Dress up your Cabra with over a dozen colorful themes, which you can unlock by using Cabra.

#### Eco-friendly

Save the earth (and your wallet): stop using wasteful paper note cards and use Cabra for all your flashcard needs. If you need physical flashcards, you can use Cabra to print them out.

#### Online projects

Make your life easier by downloading projects made by others [online](#). Learn [history](#), [geography](#), and more - without creating a single flashcard.

#### Cost: \$0.00

Cabra is, and always will be, free as in free speech and free goats. After all, the best things in life are free.

# About this guide

The Cabra 0.7.0 user manual provides readers with instructions to perform the variety of tasks Cabra offers. This manual explains the functionality of the Cabra Windows desktop version. This manual covers:

- [Installing and uninstalling Cabra 0.7.0](#)
- [Creating and editing flashcards](#)
- [Studying the flashcards](#)
- [Downloading pre-made flashcards from the internet](#)
- [Sharing flashcards with classmates and friends](#)
- [Printing flashcards](#)
- [Earning points and buying prizes](#)
- [Changing the appearance of Cabra](#)

## Icons in the guide

**Note:** Extra information referring to the section heading.

**Caution:** Information about a possible problem.

**Warning:** Must see information before starting a task.

## Contact the developer

You can contact the developer through email, a website, Facebook or Twitter. If you see an error message, please take a screenshot of it and send it to the developer.

**Email:** [Neel@hathix.com](mailto:Neel@hathix.com)

**Website:** [hathix.com](http://hathix.com)

**Facebook:** search for hathix.com from your Facebook page

**Twitter:** Search for hathix.com from your Twitter page

# CHAPTER 1: GETTING STARTED

[cabra.hathix.com](http://cabra.hathix.com)

Cabra is an open-source flashcard program that you can download for free. Visit the website to download Cabra and begin studying. This chapter provides instructions for installing, updating, resetting and uninstalling Cabra.

## Installing Cabra

1. Open your favorite browser and go to [www.cabra.hathix.com](http://www.cabra.hathix.com).
2. Click  to download Cabra onto your computer from sourceforge.net.
3. Choose a folder to store Cabra. The download begins when you click **Save**.
4. Open the folder containing Cabra and double-click the **Cabra 0.7.0.jar** file to open Cabra.

 If Cabra does not automatically download after clicking the **Download for free** button, click the **direct link** hyperlink at the top of the Sourceforge homepage.

## Updating Cabra

The developer continues to improve Cabra. On the **Cabra** menu, click  **Check for updates** to update Cabra.

### Setting an automatic update

You can set a time interval for Cabra to automatically check for updates.

1. On the **Tools** menu, click  **Settings**. The **Cabra Settings** dialog box opens.
2. Set the interval and close the dialog box.

 You can earn points by manually checking for updates.

# Resetting Cabra

You can erase all your studying progress and prizes without erasing your flashcards by resetting Cabra.

 **Resetting Cabra permanently erases all projects, flashcards, points and prizes.**

1. On the **Tools** menu, click  **Clear data**. The **Cabra Confirm** dialog box opens.
2. Click **Yes** to reset Cabra. Click **No** to close the dialog box.

See Also:

[Tracking progress](#)

[Resetting a project](#)

# Uninstalling Cabra

You can uninstall an old version of Cabra when you download an updated version.

1. Open the folder containing Cabra.
2. Right-click the **Cabra 0.7.0.jar** file and click **delete**.

# CHAPTER 2: PROJECTS

Cabra calls a set of flashcards a project. You can create your own projects or download projects other people created from the Cabra website. You can also upload your project to the website for others to download. This chapter provides instructions for creating, editing, deleting, sharing and moving your projects.

## Creating projects

You can create multiple projects. After you create a new project, create flashcards to study.

1. Click . A **Cabra Input** dialog box opens.
2. In the **Cabra Input** dialog box, enter a name and click **OK**.

See Also:

[Creating flashcards](#)

## Downloading projects

You can download projects other people created from the Cabra website.

1. On the **Import/Export** menu, click  Download projects online . [www.cabra.hathix.com/share.php](http://www.cabra.hathix.com/share.php) opens in your web browser.
2. Click  next to the project you want to download. A green dialog box opens.
3. Click [Download the file](#) to download the project to your computer. A **Save As** dialog box opens.
4. Select a folder and click **Save**.
5. Open Cabra.
6. Click . The **Choose a project to import** dialog box opens.
7. Click the file you downloaded (it has a .cproj file extension) and click **Open**.
8. In the left panel, double-click the project you downloaded. The title of the window changes to the name of the project you selected.
9. Click  to begin studying or click the **Card Manager** tab to edit the flashcards.

# Editing projects

You can rename and reset projects. You rename a project to organize your projects. You reset a project to erase your study progress without erasing your flashcards. You can also edit the flashcards in a project.

## Renaming projects

1. In the left panel, right-click the project.
2. Click **Rename Project**. A **Cabra Input** dialog box opens.
3. Enter the new project name and click **OK**.

## Resetting projects

1. In the left panel, double-click the project you want to reset. The title of the window changes to the name of the project you selected.
2. On the **Home** tab, click . A **Cabra Confirm** dialog box opens.
3. Click **OK** to erase all your studying progress in the project. All flashcards in the project revert to Rank A.

 **Resetting a project permanently erases all study progress in the project.**

See Also:

[Tracking Progress](#)

# Deleting projects

You can erase a project and all its flashcards from Cabra.

1. In the left panel, right-click the project you want to delete. A pop up menu opens.
2. Click **Delete Project**. A **Cabra Confirm** dialog box opens.
3. Click **Yes** to delete the project.

 **Deleting a project permanently erases all study progress and flashcards in the project.**

# Sharing Projects

You can share your projects online and offline with other Cabra users. You can upload projects to [www.cabra.hathix.com/share.php](http://www.cabra.hathix.com/share.php) for other users to download or import projects saved as .cproj files on your computer. You can also print your projects for offline sharing.

 You must export a project before you can upload a project.

## Exporting projects

You can export files from Cabra to your computer for online and offline sharing.

1. On the **Import/Export** menu, click  **Export a project** . A **Cabra Input** dialog box opens.
2. Select the project you want to export and click **OK**.
3. Select a folder to save your project. The **“YourProject” has been exported** dialog box opens.
4. Click **OK** to save your project as a .cproj file and complete the export.

## Uploading projects

You can upload projects to [www.cabra.hathix.com/share.php](http://www.cabra.hathix.com/share.php) so other users can download them.

1. On the **Import/Export** menu, click  **Download projects online** .  
[www.cabra.hathix.com/share.php](http://www.cabra.hathix.com/share.php) opens in your web browser.
2. Scroll to the bottom of the webpage.
3. In the **Upload a project** section, click  **Choose File** . A dialog box from your web browser opens.
4. Navigate to your Cabra folder and select the .cproj file you want to upload.
5. Enter your name.
6. Enter tags to describe your project (for example - science: biology: trees).
7. Write a description of your project.
8. Click  **Upload** . A green dialog box opens. After review, the developer posts your project to the webpage so other Cabra users can download your project.

## Importing projects

You must import a project to Cabra from your computer to study and edit it. You can download the project from [www.cabra.hathix.com/share.php](http://www.cabra.hathix.com/share.php) or get the project onto your computer by other offline and online methods.

1. On the **Import/Export** menu, click . The **Choose a project to import** dialog box opens.
2. Select the project you want to import and click **Open**.

 You can only import .cproj files.

See Also:

[Downloading projects](#)

[Editing flashcards](#)

[Studying projects](#)

## Printing projects

You can print your projects to study away from your computer.

1. On the **Print** menu, click . A **Cabra Input** dialog box opens.
2. Select the project you want to print and click **OK**. The **Preview of...** dialog box and **Print** dialog box open.
3. Preview the flashcards in the **Preview of...** dialog box.
4. Click the **General**, **Page Setup** and **Appearance** tabs to change the print settings.
5. Click the **Print** button to print the flashcards.

 You can print in black or white. Select which option in the **Appearance** tab in the **Print** dialog box.

## Other sharing methods

You can share your flashcards with other people without uploading them to a website or printing. Below are some other options for sharing your flashcards.

- If you do not have an internet connection or a printer, you can save the project files (.cproj) you want to share onto an external USB storage device (flash drive, thumb drive, USB stick) and import the projects with Cabra 0.7.0 on another computer.
- If you have an internet connection, but do not want to post your flashcards on the Cabra website, you can email the .cproj files you want to share as attachments, download them on another computer, then import them with Cabra.

 You must export projects onto your hard drive before you can share them.

See Also:

[Exporting projects](#)

[Importing projects](#)

## Changing project location folders

You can move saved projects to another folder to reorganize or share them. You can also change the folder where projects are loaded if you downloaded the projects to a folder other than the default **CabraProjects** folder.

### Moving projects to another folder

1. On the **Tools** menu, click **Settings**. The **Cabra Settings** dialog box opens.
2. Click the **Project Location** tab.
3. Click . The **To which folder do you want to move your projects** dialog box opens.
4. Select a folder and click **Select** to move your project.

## Loading projects from another folder

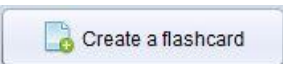

1. On the **Tools** menu, click **Settings**. The **Cabra Settings** dialog box opens.
2. Click the **Project Location** tab.
3. Click . The **Which folder should Cabra load projects from** dialog box opens.
4. Select a folder and click **Select**.

# CHAPTER 4: FLASHCARDS

Cabra calls a set of flashcards a project. You can create new flashcards in a project or edit flashcards in a saved project. You can also add and remove pictures from your flashcards. This chapter provides instructions for creating flashcards in new and saved projects, editing flashcards, deleting flashcards and printing flashcards.

## Creating flashcards

You can create flashcards for a new project or a saved project.

1. To create flashcards for a new project, click , enter a name for the new project, then click **OK**.  
To create flashcards for a saved project, double-click the saved project in the left panel. The title of the window changes to the name of the project you selected.
  2. On the **Home** tab, click . The **Create a flashcard** dialog box opens.
  3. Enter a question and an answer in the text boxes.
  4. Click  to add a picture to your new flashcard.
    - a. Click  to remove a picture from your new flashcard.
-  You can only add one picture file with an extension png, gif, jpg or jpeg.
-  You cannot change or remove a picture after saving the flashcard.
5. Click  to save the flashcard and create another.
  6. Repeat steps 3 – 6 until you make all your flashcards.
  7. Close the **Create a flashcard** dialog box.

 You don't need a mouse to create flashcards. Once the **Create a flashcard** dialog box opens, use the **Tab** key to cycle through the textboxes and the **Finish and add card** button.

See Also:

[Creating projects](#)

[Downloading projects](#)

# Editing flashcards

You can change the questions and answers on saved flashcards.

 You cannot change or remove a picture after saving the flashcard.

1. In the left panel, double-click the project with the flashcards you want to edit. The title of the window changes to the name of the project you selected.
2. Click the **Card Manager** tab. All the flashcards are listed vertically.
3. Scroll down to the card you want to edit.
4. Click  to edit the question and the answer on the card.
5. Click  to save your changes.

 The color behind the delete and edit buttons and the letter below the buttons indicate the flashcard's ranking.

See Also:

[Creating flashcards](#)

[Downloading projects](#)

[Tracking Progress](#)

# Deleting flashcards

You can delete a flashcard from a project.

1. In the left panel, double-click the project with the flashcards you want to delete. The title of the window changes to the name of the project you selected.
2. Click the **Card Manager** tab. All the flashcards are listed vertically.
3. Scroll down to the card you want to edit.
4. Click  to delete the card. A **Cabra Confirm** dialog box opens.
5. Click **Yes** to delete the card.

 Deleting a flashcard from a project erases it permanently.

# Printing flashcards

A set of flashcards is a project. You can print your projects to study away from your computer.

1. In the left panel, double-click the project with the flashcards you want to print. The title of the window changes to the name of the project you selected.
2. On the **Print** menu, click  **Print flashcards**. A **Cabra Input** dialog box opens.
3. Select the project you want to print and click **OK**. The **Preview of...** dialog box and **Print** dialog box open.
4. Preview the flashcards in the **Preview of...** dialog box.
5. Click the **General**, **Page Setup** and **Appearance** tabs to change the print settings.
6. Click the **Print** button to print the flashcards.

You can print in black or white. Select which option in the **Appearance** tab in the **Print** dialog box.

# CHAPTER 5: STUDYING

Cabra creates personalized study sessions using the Leitnerian study method. Cabra also tracks your progress so the sessions focus on flashcards you don't know more than flashcards you do know. You can take notes while you are studying. This chapter provides instructions studying flashcards and taking notes. It also describes how Cabra tracks your progress.

## Studying projects

1. In the left panel, double-click the project you want to study. The title of the window changes to the name of the project you selected.
2. On the **Home** tab, click  to begin studying. If you had quit a previous study session, the **Studying** dialog box opens. Click  to proceed.
3. Enter the answer to the question in the **Your answer** text box.
4. Click  to see if you answered correctly or incorrectly.
5. Click  if you knew the answer.  
A green box appears at the bottom of the window.  
Click  if you sort of knew the answer.  
A yellow box appears at the bottom of the window.  
Click  if you did not know the answer.  
A red box appears at the bottom of the window.
6. Repeat steps 3-5 for each card. A chart with your results opens after you answer the last card.
7. Click  to continue studying or close the **Studying** dialog box to end the study session.

 You can quit a study session anytime by clicking  or closing the **Studying** dialog box.

See Also:

[Creating flashcards](#)  
[Downloading projects](#)  
[Editing flashcards](#)

## Skipping questions

You can skip a question by clicking  at the top of the **Studying** dialog box.

 If you skip a question, you cannot answer it later.

## Tracking Progress

Each flashcard is ranked after every study session. Below is a table of the rankings. You answer cards you do not know well more often than cards you do know well.

Rank	
<b>A</b>	These cards are new, so you'll study them the most.
<b>B</b>	You know these cards just a little, so you'll study them a lot.
<b>C</b>	You're in the process of learning these cards, so you'll study them occasionally.
<b>D</b>	You know these cards very well, so you won't study them often.
<b>E</b>	You know these cards well, so you'll study them rarely.

## Resetting projects

You reset a project to erase your study progress without erasing your flashcards

1. In the left panel, double-click the project you want to reset. The title of the window changes to the name of the project you selected.
2. On the **Home** tab, click . A **Cabra Confirm** dialog box opens.
3. Click **OK** to erase all your studying progress for the project. All the flashcards in the project revert to Rank A.

 Resetting a project permanently erases all study progress

See Also:

[Deleting projects](#)

[Resetting Cabra](#)

# Taking Notes

You can create notes within a project for later reference. You can also edit, format and insert images into these notes.

## Creating notes

1. In the left panel, double-click the project you want to create notes for. The title of the window changes to the name of the project you selected.
2. Click the **Notes** tab.
3. Click  to create a new note.
4. Enter your new note.
5. Click  to add a picture to your note. You can insert multiple images.
  - a. To delete an image from a note, place the cursor next to the image and press the **Backspace** key.
6. Format the note. Below is a table of the formatting options.
7. Click  to save the note.

	bold		font size
	italic		font color
	underline		redo
	font type		undo

## Reading saved notes

1. In the left panel, double-click the project with the notes you want to read. The title of the window changes to the name of the project you selected.
2. Click the **Notes** tab. Tabs of each saved note are next to the **Create a new note** icon.
3. Click the tab of the note you want to read.

## Editing saved notes

1. In the left panel, double-click the project you want to edit. The title of the window changes to the name of the project you selected.
2. Click the **Notes** tab. Tabs of each saved note are next to the **Create a new note** icon.
3. Click the tab of the note you want to edit.
4. Add, delete or change text in the text box.
5. Click  to add a picture to your note. You can insert multiple images.
  - a. To delete an image from a note, place the cursor next to the image and press the **Backspace** key.
6. Edit or change the formatting of the note. Below is a table of the formatting options.
7. Click  to save the changes to the note.

	bold		font size
	italic		font color
	underline		redo
	font type		undo

## Deleting notes

**Warning:** Deleting a note permanently deletes the note.

1. In the left panel, double-click the project you want to delete notes from. The title of the window changes to the name of the project you selected.
2. Click the **Notes** tab. Tabs of each saved note are next to the **Create a new note** icon.
3. Click on tab of the note you want to delete.
4. Click  to delete the note. The **Cabra Confirm** dialog box opens.
5. Click **Yes** to delete the note.

# CHAPTER 5: POINTS AND PRIZES

Cabra rewards you with points. Points are the same as coins. You can buy virtual prizes (animal cards) with the points you earn. The more you create, study and share, the more points you earn. The animal cards can be common, uncommon, rare or super-rare. Collect as many trading cards as you can, but the goal is to earn the ultimate, rarest trading card: The Evil Goat! This chapter provides instructions for earning points, buying prizes and redeeming codes.

## Earning points

You can earn points many different ways in Cabra. Points are the same as coins. Below is a table of these actions and the points they earn.

Points	Action
1	Study a card and get it right
2	Create a flashcard
3	Add an image to a flashcard
3	Create a note
5	Export a project
5	Get a card to rank E
10	Print out a project's flashcards
10	Create a project
20	Import a project
50	Use a new version of Cabra
100	Use a beta version of Cabra
100	Get lucky

You can see how many points you have on the **Vaults** tab.

# Buying prizes

You can buy prizes from **Store** on the **Vault** tab. The prizes are animal trading cards. Collect as many prizes as you can. The more expensive the prize, the rarer the prize. Earn enough points to buy the rarest prize of them all: The Evil Goat!

1. On the **Vault** tab, click the **Store** tab.
2. Click the  button of a prize pack you can afford. The **Cabra Confirm** dialog box opens.
3. Click **Yes** to complete your purchase. An **Opening the prize pack** dialog box opens showing your prizes.
4. Close the dialog box to go back to the store.

 All prize packs contain three animal cards.

# Understanding Prizes

The virtual prizes are animal cards. You buy them in packs of three on the **Store** tab. The more you create, study and share flashcards, the more points you earn. Points are the same as coins. The trading cards are color-coded based on how rare and expensive they are. The goal is to buy the rarest, most expensive card of them all: The Evil Goat!

## THE PRIZES: ANIMAL TRADING CARDS 1

expensive				Evil Goat goat
			tiger lion elephant penguin chicken pig cow sheep	
		elephant penguin chicken pig cow sheep cat dog		
	chicken pig cow sheep cat dog Squirrel			
COST				
cheap	Common	Uncommon	Rare	Super-Rare

- The most common and cheapest cards are on the bottom left of the table.
- The rarest most expensive cards are on the top right of the table.

# Redeeming Codes

Cabra developer gives you codes for contacting him. You can redeem the codes for 20 – 50 points.

1. To redeem a code, on the **Codes** menu, click  Enter a code . A **Cabra Input** dialog box opens.
2. Enter the code and click **OK** to collect your points.

 You can see your redeemed codes by clicking  Codes redeemed on the **Codes** menu.

# CHAPTER 6: APPEARANCES

Cabra offers different fonts, font sizes and color schemes. You can change the colors of the interface by selecting different themes. The **Cabra Settings** window controls the font size and font type. This chapter describes how to change the color scheme, font and font size of the Cabra interface and flashcards for print.

## Changing colors with themes

You can change the colors of the interface by selecting a different theme.

- To change the colors of the Cabra interface, select a theme from the **Themes** menu. Try different themes until you find one you like.

 All themes are unlocked and free in Cabra 0.7.0.

## Changing the font

You can change the font size and font type of the flashcards and the Cabra interface.

1. On the **Tools** menu, click  **Settings**. The **Cabra Settings** dialog box opens.
2. Click the **Font** tab.
3. Select a font size and font name (font type).
4. Close the **Cabra Settings** dialog box.
